

Carbon markets promotion project in Uganda / East Africa

Overall goal: We support Eastern African countries in using carbon markets and carbon pricing for implementing their Nationally Determined Contributions (NDCs).

Carbon markets promotion project in Uganda / East Africa

- Policy advice for **public decision makers** on carbon market instruments and approaches
- Technical support to the **private sector** on project identification and development
- We promote **regional cooperation** and the development of a common Eastern African vision on carbon markets and carbon pricing.
