Million CERs issued for projects

World [1953]

Africa [47.8]

East Africa
[6.9]

East Africa: 0.4% of global issuance

Out of the 64 projects, 40 have not issued any credits to date

Africa: 2.3% of global issuance

CDM PoA experience in East Africa

Number of registered PoAs

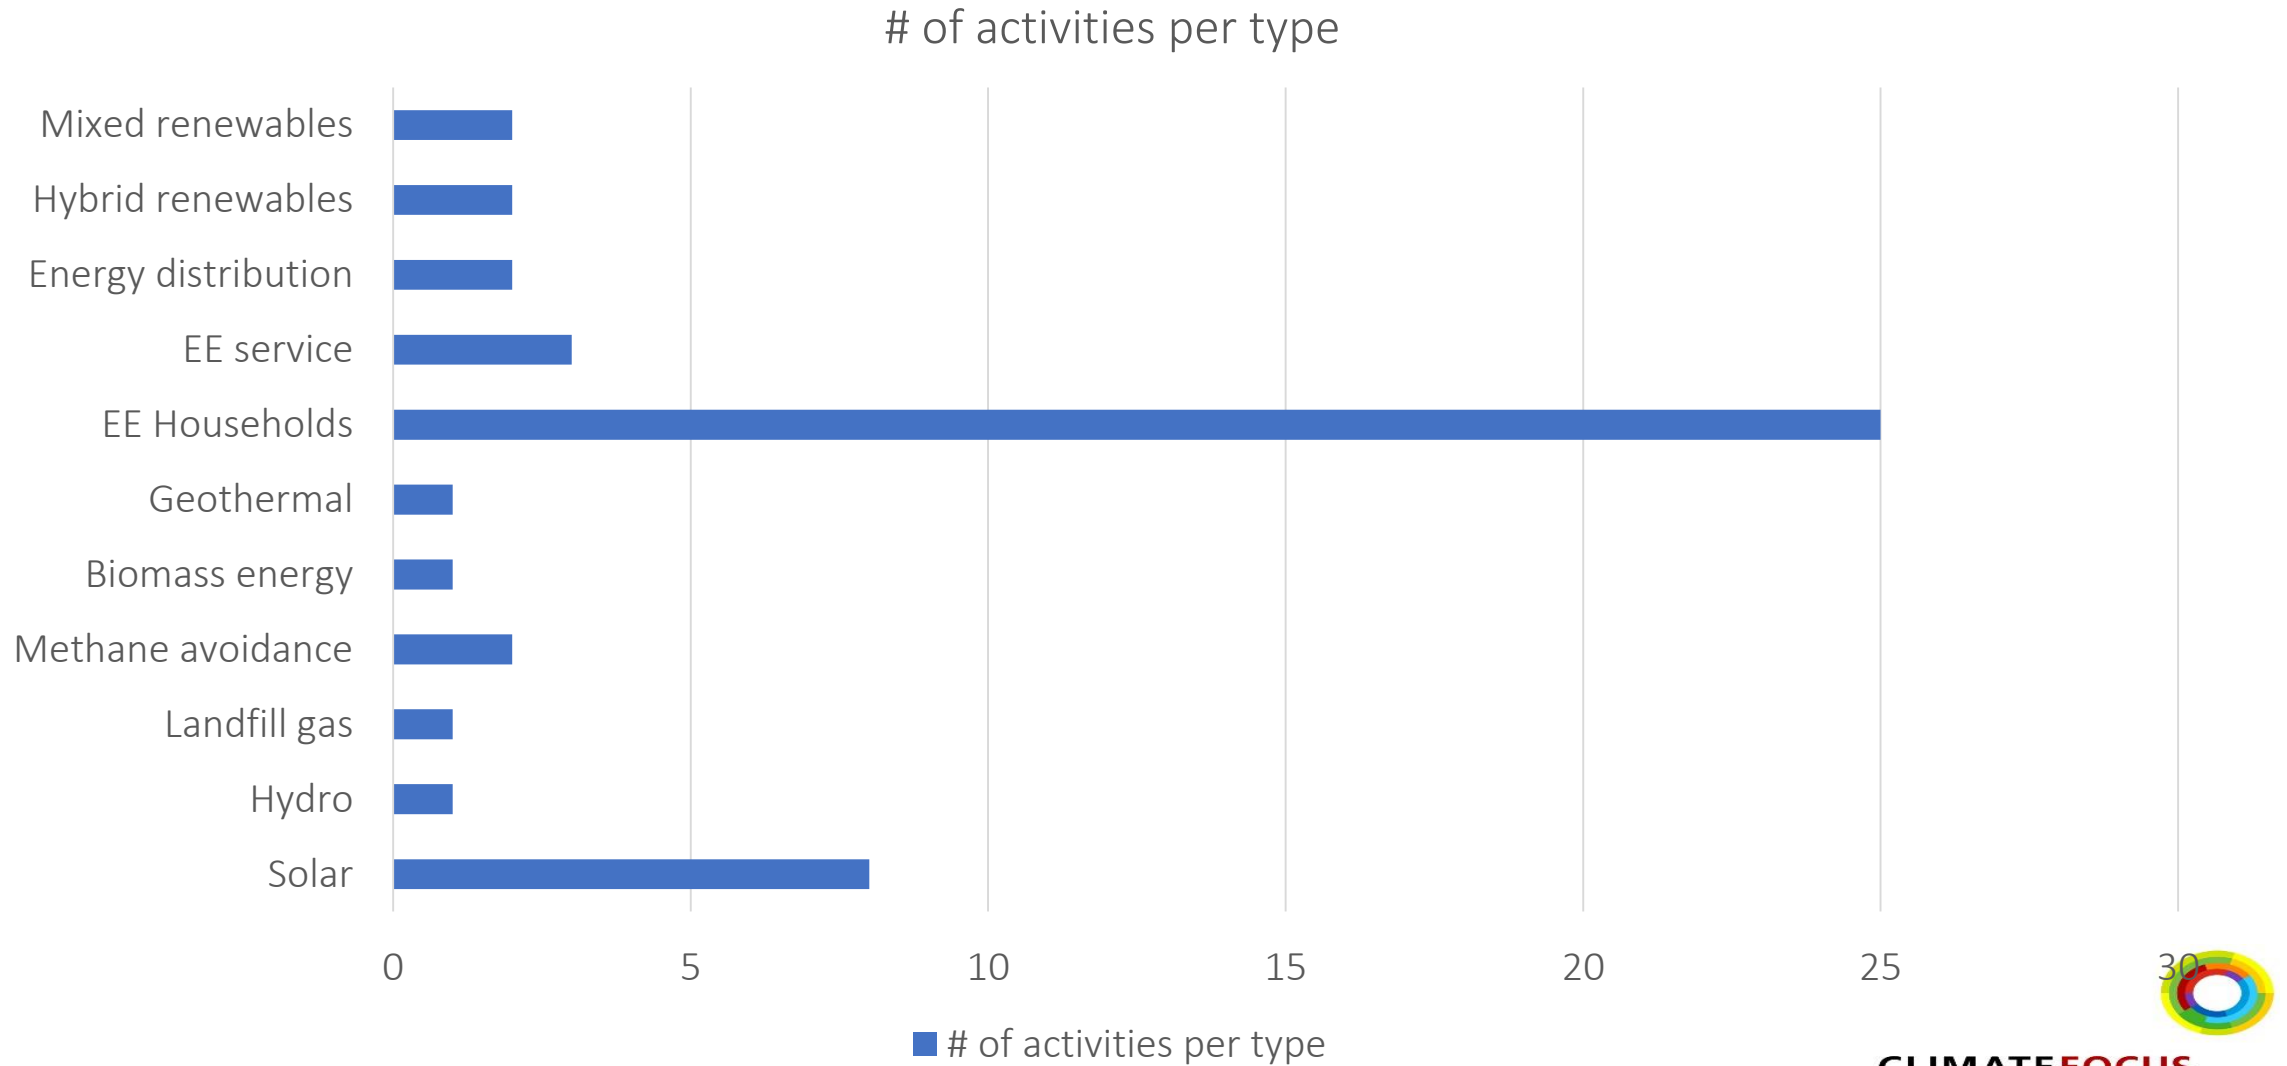

East Africa: 15.2% of global registration

- 36 PoAs so far with CPAs exclusively in East Africa, 12 PoAs with CPAs partially in West Africa
- 3 PoAs in West Africa replaced at validation
- 2 PoAs in West Africa rejected
- 10 currently in validation
- Issuances in 14 of 48 PoAs

Africa: 35.2% of global registration

Covered project types in PoAs

Geographical distribution of CPAs

Million CERs issued in CPAs

East Africa: 13% of global issuance

Issuances in 54 of the 265 CPAs

Africa: 25.9% of global issuance

Context

Under the CDM, **building capacity for participation** from African countries took a long time.

Programmatic approaches that took into consideration implementation barriers in least developed countries were beneficial for African CDM participation.

Pro-active considerations for participation in the new carbon mechanisms of the Paris Agreement are necessary for taking full advantage of the benefits.

Thank you
