Preparing Africa for the implementation of Article 6: East and West African Alliance on Carbon Markets and Climate Finance

Convenor: **Climate Focus**

Speaker: **Ousmane Fall Sarr,** West African Alliance on Carbon Markets and Climate Finance

Gloria Namande, GIZ

Fabrice le Sache, AERA Group

Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH

On behalf of:

Federal Ministry for the Environment, Nature Conservation, Building and Nuclear Safety

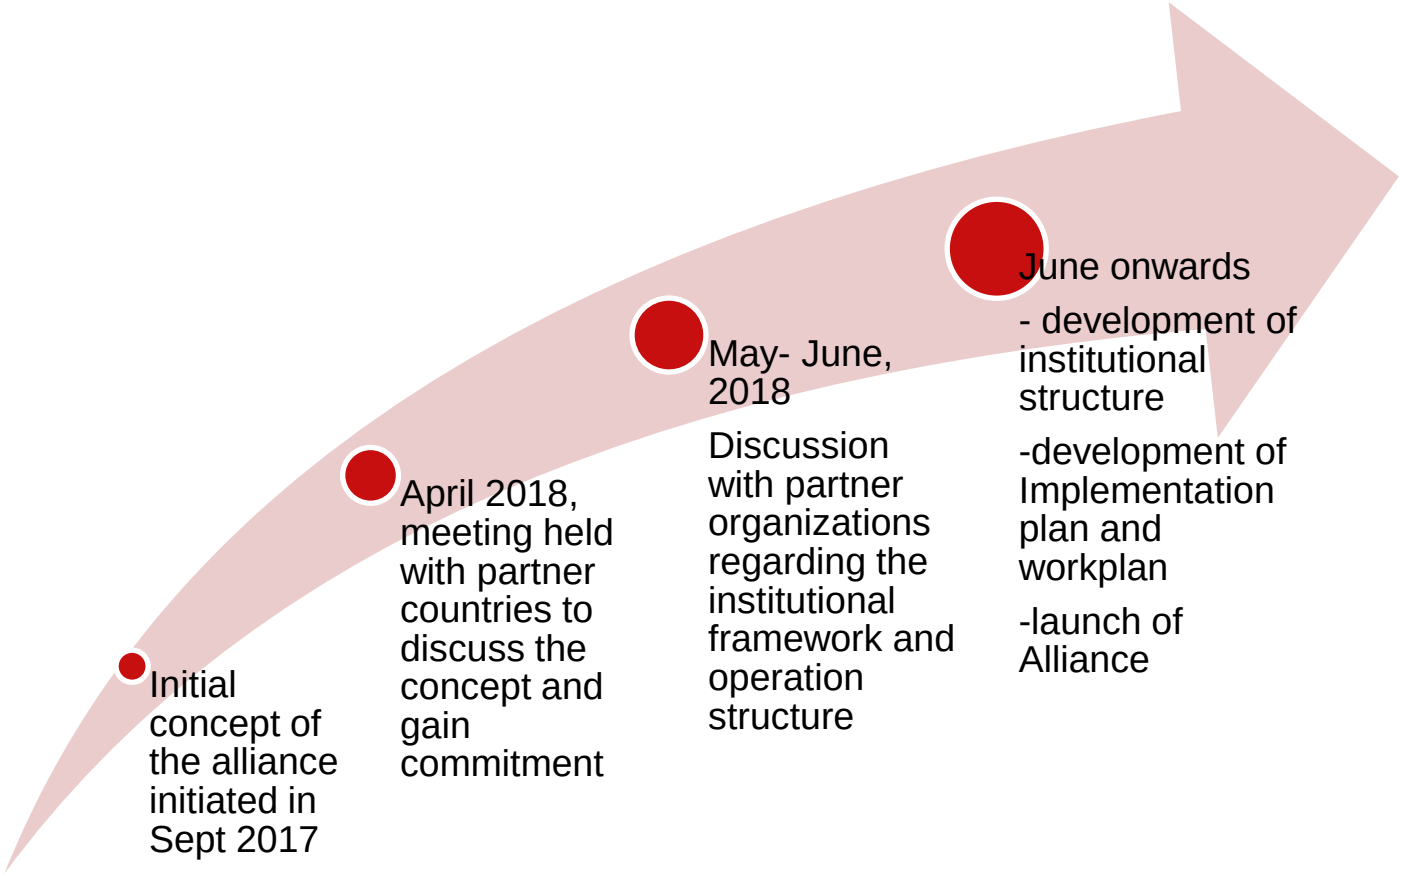
of the Federal Republic of Germany

Implementation of future Carbon Markets in East Africa

East African Alliance on carbon markets and climate finance

- Regional alliance is seen as one way to attain long-term NDC targets through leveraging support and capacity for transformative and ambitious action in the East African region
- Supporting countries in East African to engage in future carbon markets under the Paris Agreement
- Alliance aims to support East African countries to participate in climate change actions including international carbon markets, and increase the region's capacities to access results-based climate finance for NDC implementation
- Partner institutions include GIZ, UNFCCC Regional collaboration Centre, Kampala, Climate Focus
- Membership to all interested parties in the East African region

EA Alliance process



Relevance of existing carbon market infrastructure in regard to NAMA and NDC implementation

- Carbon market instruments and methodologies developed under the KP such as standardised baselines support the MRV of NAMA e.g. Uganda Green Schools NAMA.
- CDM methodologies can be used in the measurement of mitigation outcomes under article 6.2 and 6.4 (accounting of mitigation outcomes)
- Country level GHG inventories are important and can be used to track NDC implementation in terms of the GHG impact in the different sectors e.g. energy, transport, agriculture, waste management
- Carbon pricing instruments e.g. ETS, carbon taxes as a climate finance source for NDC implementation under article 6

Deutsche Gesellschaft
