- JI projects in Lithuania
- JI reserve
- Potential
- Green Investment Scheme

Main institutions for JI in Lithuania

- **Ministry of Environment** (organises and coordinates execution of Kyoto Protocol Joint implementation mechanism);
- **Ministry of Economy** (coordinates JI projects in energy sector);
- **Lithuanian Environmental Investment Fund (LEIF)** (JI Project Idea Note's submission for its Supervisory Board for the initial evaluation, JI project registration, transactions of respective Kyoto units).

LEIF

- Founded in 1996 by the Ministry of Environment; main task – to support public and private sectors in realization of environmental projects and projects to reduce the negative impact of economic activities on environment.
- On 2 December 2003 (order of the MoE) LEIF has been authorized to carry out the function of GHG Registry and JI projects administration.
- Climate Change Division was founded in 2005. Currently 3 persons working.

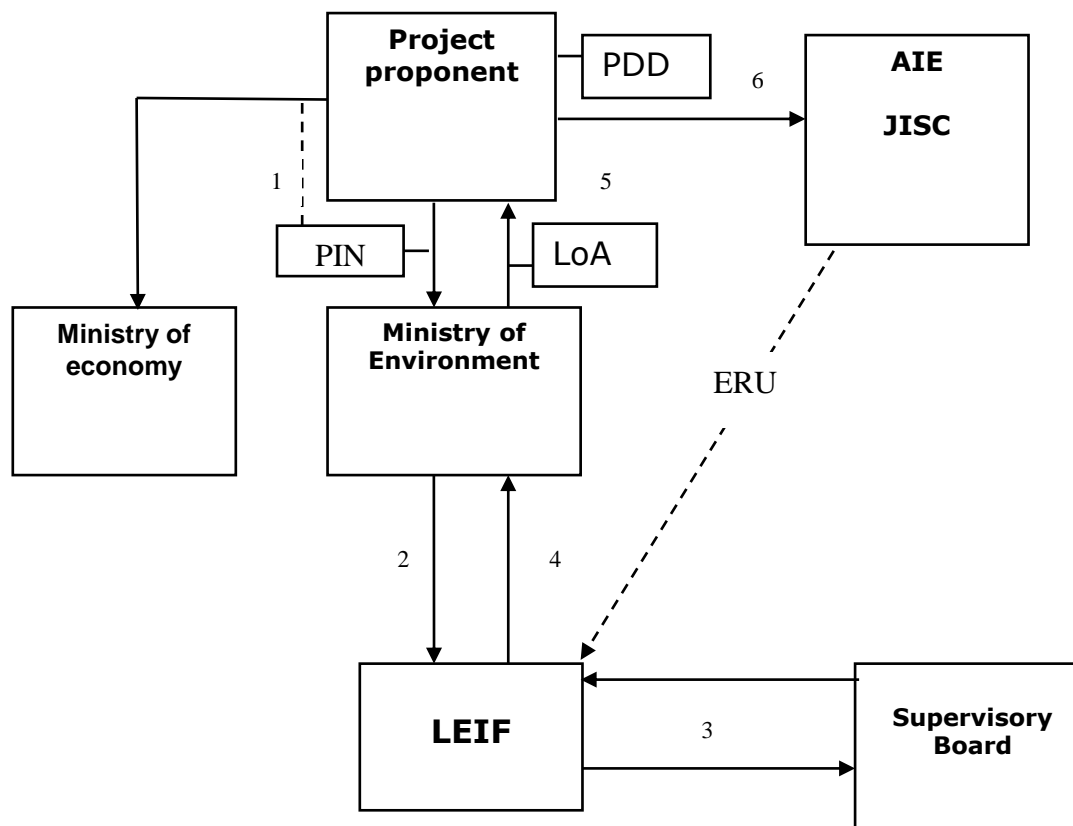

JI in Lithuania

- 6 Wind Power Parks Projects
- 2 N₂O Reduction Projects
- A Biofuel JI Project
- A Flare Gas Reduction Project
- A Landfill Gas Utilization Project

Track II procedures.

Total planed 2008-2012 CO₂ reduction **11 399 547** tones.

JI project cycle in Lithuania

JI reserve for 2008-2012 in energy sector (avoiding Double Counting)

Total: 1 321 310 ERU

Approved: 967 322 ERU

Left: 353 988 ERU

AA about 165 000 000

Potential

Renewables (not energy sector)

Landfill

Animal waste

Etc.

GIS in Lithuania

Position: good possibilities for implementation GIS in Lithuania.

Challenges: to calculate AA proportion for GIS;
to identify institutional functions to administrate GIS funds;
to formulate the financing scheme and appropriateness criterion for GIS projects.

Asta Skrockaitė
